

107TH CONGRESS
1ST SESSION

H. R. 3274

To provide assistance to those individuals most affected by high energy prices and to promote and accelerate energy conservation investments in the United States.

IN THE HOUSE OF REPRESENTATIVES

NOVEMBER 9, 2001

Mr. SANDERS introduced the following bill; which was referred to the Committee on Ways and Means, and in addition to the Committees on Energy and Commerce, and Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To provide assistance to those individuals most affected by high energy prices and to promote and accelerate energy conservation investments in the United States.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the
5 “Comprehensive Energy Conservation Act for the 21st
6 Century”.

7 (b) TABLE OF CONTENTS.—The table of contents for
8 this Act is as follows:

- Sec. 1. Short title.
 Sec. 2. Findings and purposes.

TITLE I—ENERGY CONSERVATION

- Sec. 101. Increased funding for LIHEAP, weatherization, and State energy grants.
 Sec. 102. Funding for the Energy Star program.
 Sec. 103. Increased average fuel economy standards.
 Sec. 104. Renewable energy.
 Sec. 105. Fuel efficient tire program.

TITLE II—TAX PROVISIONS

 Sec. 212. Windfall profits fund.
 Sec. 213. Reasonable profits board.

1 **SEC. 2. FINDINGS AND PURPOSES.**

2 (a) FINDINGS.—The Congress finds that—

3 (1) high energy costs are causing hardship for
 4 families;

5 (2) restructured energy markets have increased
 6 the need for a higher and more consistent level of
 7 funding for low income energy assistance programs;

8 (3) conservation programs implemented by the
 9 States and the low income weatherization program
 10 reduce costs and need for additional energy supplies;

11 (4) raising the Corporate Average Fuel Econ-
 12 omy (CAFE) standards to 45 miles per gallon for
 13 cars, and 34 miles per gallon for light trucks, over
 14 the next decade would save consumers

1 \$80,000,000,000 a year at the pump, reduce green-
 2 house gas emissions by more than
 3 1,500,000,000,000 pounds a year, and save
 4 51,000,000,000 barrels of oil over the next 50 years,
 5 more than 15 times the likely yield from the Arctic
 6 National Wildlife Refuge; and

7 (5) upgrading the quality of replacement tires
 8 to match that of tires that come as standard equip-
 9 ment on new cars would save 5,400,000,000 barrels
 10 of oil over the next 50 years - 70 percent more than
 11 the total amount of oil that would likely be pumped
 12 from the Arctic National Wildlife Refuge over the
 13 same time period.

14 (b) PURPOSES.—The purposes of this Act are to pro-
 15 vide assistance to those individuals most affected by high
 16 energy prices, to enhance national security, and to pro-
 17 mote and accelerate energy conservation investments in
 18 the United States.

19 **TITLE I—ENERGY** 20 **CONSERVATION**

20 tion 365(f) of the Energy Policy and Conservation Act (42
21 U.S.C. 6325(f)) is amended by striking “for fiscal years

10 **SEC. 103. INCREASED AVERAGE FUEL ECONOMY STAND-**
11 **ARDS.**

12 (a) INCREASED STANDARDS.—Section 32902 of title

20 **SEC. 104. RENEWABLE ENERGY.**

21 (a) STANDARD.—Title VI of the Public Utility Regu-
22 latory Policies Act of 1978 (16 U.S.C. 2621 note) is
23 amended by adding the following new section after section
24 604:

1 **“SEC. 605. FEDERAL RENEWABLE PORTFOLIO STANDARD.**

2 “(a) MINIMUM RENEWABLE GENERATION REQUIRE-
3 MENT.—(1) For each calendar year beginning with cal-
4 endar year 2002, every retail electric supplier shall submit
5 to the Secretary Renewable Energy Credits in an amount
6 equal to the required annual percentage, specified in sub-
7 section (b), of the total electric energy sold by the retail
8 electric supplier to electric consumers during the calendar
9 year. The retail electric supplier shall make such submis-
10 sion before April 1 of the following calendar year.

11 “(2) For purposes of this section a ‘renewable energy
12 facility’ means an electric generation facility that gen-
13 erates electric energy through the use of solar energy,
14 wind, geothermal, or biomass.

15 “(3) This section does not preclude a State from re-
16 quiring additional renewable energy generation in that
17 State.

18 “(b) REQUIRED ANNUAL PERCENTAGE.—(1) The
19 Secretary shall determine the percentage of the total elec-
20 tric energy sold by retail electric suppliers to electric con-
21 sumers in the United States that is renewable energy for
22 the calendar year 2001.

23 “(2) The Secretary shall determine the required an-
24 nual percentage for calendar years 2002 through 2019.
25 This percentage shall be greater than the percentage in
26 paragraph (1) and less than the percentage in paragraph

1 (3) and shall be selected to promote a smooth transition
2 to the percentage in paragraph (3).

3 “(3) For calendar years 2020 and thereafter, the re-
4 quired annual percentage is 20 percent.

5 “(c) SUBMISSION OF CREDITS.—A retail electric sup-
6 plier may satisfy the requirements of subsection (a)
7 through the submission of—

8 “(1) renewable energy credits issued under sub-
9 section (d) for renewable energy generated by the re-
10 tail electric supplier in the calendar year for which
11 Renewable Energy Credits are being submitted or in
12 any previous calendar year.

13 “(2) renewable energy credits issued under sub-
14 section (d) to any entity for renewable energy gen-
15 erated in the calendar year for which renewable en-
16 ergy credits are being submitted or in any previous
17 calendar year and acquired by the retail electric sup-
18 plier; or

19 “(3) any combination of renewable energy cred-
20 its under paragraphs (1) and (2).

21 “(d) ISSUANCE OF CREDITS.—(1) The Secretary
22 shall establish, not later than one year after the date of
23 enactment of this section, a program to issue, monitor the
24 sale or exchange of, and track Renewable Energy Credits.

1 “(2) An entity that generates electric energy through
2 the use of a renewable energy facility may apply to the
3 Secretary for the issuance of Renewable Energy Credits.
4 The application shall indicate—

5 “(A) the type of renewable energy resource
6 used to produce the electric energy;

7 “(B) the State in which the electric energy
8 was produced; and

9 “(C) any other information the Secretary
10 deems appropriate.

11 “(3)(A) Except as provided in paragraph (B),
12 the Secretary shall issue to an entity 1 Renewable

14 ergy the entity generates through the use of a re-
15 newable energy facility in any State in 2002 or in
16 any succeeding year.

17 “(B) To be eligible for a Renewable Energy
18 Credit, the unit of electricity generated through the
19 use of a renewable energy facility may be sold or
20 may be used by the generator. If an electric genera-
21 tion facility uses both a renewable energy resource
22 and a nonrenewable energy resource to generate
23 electric energy, the number of credits issued for a
24 calendar year shall equal the percentage of the elec-
25 tric energy generated by the electric generation facil-

1 ity during such calendar year that is generated
2 through the use of a renewable energy resource,
3 multiplied by the total amount of kilowatt-hours of
4 electric energy generated by the electric generation
5 facility during such calendar year. The Secretary
6 shall identify Renewable Energy Credits by type of
7 renewable energy resource used and by the State in
8 which the generating facility is located.

9 “(4) In order to receive a Renewable Energy
10 Credit, the recipient of a Renewable Energy Credit
11 shall pay a fee, calculated by the Secretary, that
12 equals the administrative costs of issuing, recording,
13 monitoring the sale or exchange of, and tracking the
14 Renewable Energy Credit, or that equal 5 percent of
15 the dollar value of the Renewable Energy Credit,
16 whichever is less. The Secretary shall retain the fee
17 and use it to pay such administrative costs.

18 “(5) When a generator sells electric energy gen-
19 erated through the use of a renewable energy facility
20 to a retail electric supplier under a contract subject
21 to section 210 of this Act, for the purposes of this
22 section the retail electric supplier shall be treated as
23 the generator of the electric energy for the duration
24 of the contract.

1 “(e) SALE OR EXCHANGE.—A Renewable Energy
2 Credit may be sold or exchanged by the entity to which
3 issued or by any other entity that acquires the Renewable
4 Energy Credit. A Renewable Energy Credit issued during
5 any year that is not used to satisfy the minimum renew-
6 able generation requirement of subsection (a) for that year
7 may be carried forward for use in a succeeding year.

8 “(f) ENFORCEMENT.—The Secretary may bring an
9 action in the appropriate United States district court to
10 improve a civil penalty on a retail electric supplier that
11 does not comply with subsection (a). Such civil penalty
12 shall equal not more than 3 times the value of the Renew-
13 able Energy Credits the retail electric supplier has failed
14 to submit, as determined by the Secretary.

15 “(g) INFORMATION COLLECTION.—The Secretary
16 may collect the information necessary to verify and
17 audit—

18 “(1) the annual electric energy generation and
19 renewable energy generation of any entity applying
20 for Renewable Energy Credits under this section;

21 “(2) the validity of Renewable Energy Credits
22 submitted by a retail electric supplier to the Sec-
